### SHOE LIFT ORDER INFO

SHOE LIFT HEIGHT (REQUIRED)

Imperial OR Decimal System i.e. 3/4" or 19mm)

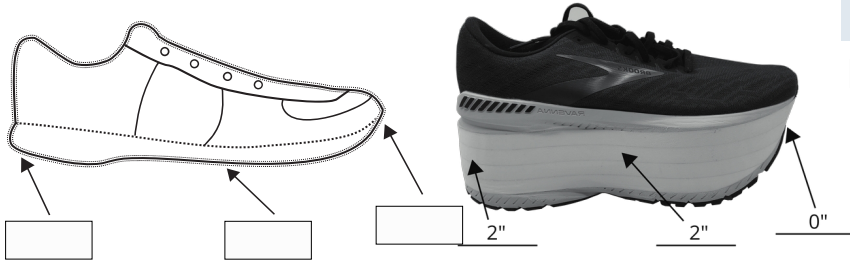

- Repeat Shoe Lift Specs On File
- Honeycomb shoe lift design: Precise carving and drilling of lift building material for up to 50% more flexibility and light weight results for just **\$20.00**

- Weight is over 200 pounds and/or you are very hard on your shoes. We may elect to use a denser and higher durometer lift material to help prevent collapse.
- Specialty Shoe (Golf, Cycling, Soccer, Five Finger, Other Cleats or specialty) **\$40.00**

**OPTIONAL INSTRUCTIONS**

Most customers give us the lift size above and we do the standard tapering from our experience for that lift size and shoe style unique to that job. If you would like a more customized tapering, you can use the three-point diagram below and we will use those specs when we perfect your lift.

### SHOE DETAIL (OPTIONAL)

LEFT /  RIGHT     LEFT /  RIGHT

SIZE     SIZE
